

! CAUTION

- All wiring should be done by a licensed electrician in accordance with state codes, local codes and National Electric Code (NEC) standards.
- Improper installation may result in serious injury and void warranty.
- Contains parts and assemblies susceptible to damage by electrostatic discharge (ESD).

Included in the VA/VB LED Series Fuse Kit: fuse, fuse holder and cable tie.

Installation

1. Connect the red lead of the fuse holder to the black or hot lead of the supply line.
2. Connect the black lead of the fuse holder to the appropriate voltage lead of the VA/VB luminaire.
3. Insert the fuse into the holder and twist to lock it in place.
4. Neatly bundle fuse and wires together using cable tie.

Product design and specifications are subject to change without notice.
