

! CAUTION

- All wiring should be done by a licensed electrician in accordance with state codes, local codes, National Electric Code (NEC) standards and International Electrotechnical Commission (IEC) standards.
- Improper installation may result in serious injury and void warranty.
- When using luminaires, basic safety precautions should always be followed to reduce the risk of fire, electric shock and personal injury.

Included in the MRSE Lens Kit: twenty-four (24) hex 10-16 screws (Item 1), one (1) lens retainer (Item 2), one (1) gasket (Item 3) and one (1) lens (Item 4).

Lens Installation

1. Disconnect power to fixture.
2. Loosen the twenty-four (24) hex 10-16 screws (Item 1).
3. Remove the screws (Item 1), lens retainer (Item 2), gasket (Item 3) and lens (Item 4) from the fixture housing.
4. Insert new lens (Item 4), gasket (Item 3) and lens retainer (Item 2) into fixture housing.
5. Secure lens (Item 4), gasket (Item 3) and lens retainer (Item 2) using twenty-four (24) hex 10-16 screws. Torque screws to 50 lb-in. When securing screws, alternating across the fixture is recommended.

Product design and specifications are subject to change without notice.
