

PHOENIX[®]
DURABILITY X DESIGN[™]

DURABLE LIGHTING
BUILT TO PERFORM

Every day, with every light, and for every project ...

... we are committed to durability. As we design, engineer and manufacture our products, we are constantly thinking about who is using them and what they need to do their jobs safely and effectively.

Every night around the world,

people depend on Phoenix lights. From the first light we built in 1943 to the LED fixture that was installed last week, our product line has been a sequence of innovations inspired by our customers and their evolving needs.

With unrivaled industry expertise and the highest level of technology available, Phoenix light fixtures bring a new level of safety and efficiency to your operations.

Phoenix Lighting
BY THE NUMBERS

Just a few of the reasons you can count on Phoenix.

6	continents with Phoenix lighting
77	years manufacturing lights
100	% commitment to service and quality
128	years in business
400,000	LED fixtures

Our fixtures have been
tested and proven ...

... in the most extreme conditions for over 77 years. We use measures like superior LEDs, potted drivers, high quality finishes and marine grade components to ensure our fixtures last longer than any other option.

We test our fixtures by exposing them to the most extreme scenarios – shock, vibration, moisture, hazardous conditions ... Phoenix sends every fixture out the door with the confidence that it will stand up to the intended environment.
