

PHOENIX[®]
DURABILITY X DESIGN™

DURABLE LIGHTING
docklite[®]

Every day, with every light, and for every project ...

... we are committed to durability. As we design, engineer and manufacture our products for the material handling industry, we are constantly thinking about who will use them and what they need to do their jobs safely and effectively.

Every day, in facilities around the world,

people depend on Phoenix dock lights. From our invention of dock lights in 1961 to the LED fixture that was just installed on a dock door last week, our product line has been a sequence of innovations inspired by our customers worldwide and their evolving needs.

With unrivaled industry expertise and the highest level of technology available, Phoenix light fixtures bring a new level of safety and efficiency to material handling.

Phoenix

BY THE NUMBERS

Just a few of the reasons you can count on Phoenix.

- 6** continents with Phoenix lighting
- 77** years manufacturing lights
- 100** % commitment to service and quality
- 128** years in business
- 400,000** LED fixtures

Our fixtures have been tested and proven ...

... in the most extreme conditions for over 77 years. We use measures like potted drivers, conformal coating, stranded wires, high quality finishes and marine grade components to ensure our fixtures thrive on docks and last longer than any other option.

We test our fixtures by exposing them to the rigors they are designed for – shock, temperature variances, moisture, hazardous conditions ... Phoenix sends every fixture out the door with the confidence that it will stand up to your facility's demands.

docklite® LED

FlexPro docklite® Flexible Arm LED Dock Light

- 10W dock light designed to replace up to 150W incandescent light head
- sleek, compact design with durable plastic housing
- flexible arm and hinged bracket allow for improved aimability and enables fixture to swing away upon impact

Wattage 10W
Lumens up to 1100
Warranty 3 years

DLX LED docklite® Explosion-proof LED Task Light

- explosion-proof LED task light rated for hazardous and wet locations
- maximum versatility with spot and flood optic options
- for use in chemical plants, drilling rigs, refineries and other hazardous locations

Wattage 44W
