

DURABLE LIGHTING
docklite[®]

PHOENIX[®]
DURABILITY X DESIGN[™]

A TRADITION OF TRUST.

Phoenix has a rich history of tradition dating back over 126 years in the city of Milwaukee. Since 1892, it has thrived in a number of different industries, but the fundamentals of the company have stayed the same. Phoenix has remained a family-owned business operating with integrity and a focus on customer solutions.

Since the 1940s, Phoenix has specialized in lighting fixtures. The company quickly became the authority on durable lighting designs for the world's harshest environments. Over seven decades later, Phoenix is trusted to provide fixtures for heavy equipment, corrosive conditions, hazardous locations and various other demanding applications.

As the lighting industry continues to evolve, Phoenix remains committed to providing the quality, service and innovation that customers have come to expect.

Our expertise in the material handling industry

dates back to the 1960s when Phoenix invented and manufactured the very first dock light. Since then, Phoenix's docklite® options have continued to improve operations all over the world. We prove our "Durability by Design®" approach to lighting in a market that requires exceptional light quality and rugged fixture designs. Because sustainability is on the rise and cost-consciousness is a must, customers take advantage of Phoenix's innovative LED options to increase lifespan, eliminate maintenance costs and significantly reduce power consumption.

Our values

Collaboration

We are committed to the industries we serve and evolve with you as priorities shift and technology advances. The conversation is continuous, and we proudly lend our expertise whenever possible.

Progress

Our exceptional engineering team and innovative manufacturing practices are widely recognized and ensure that only superior products reach the market.

Craftsmanship

Our unwavering attention to detail ensures results that far exceed your expectations. We design, engineer and manufacture products that last.

Authenticity

We stay true to the roots of Phoenix and respect the vision, ingenuity and hard work that have brought us to where we are today. We are committed to the future of our customers, employees and community.

Durability by Design®

Every light. Every project. Every day. We are committed to durability. Our fixtures have been tested and proven in the most extreme conditions. We employ measures like potted drivers, conformal coating, stranded wires, high quality finishes and marine grade components to ensure that our fixtures thrive in their intended environments and last longer than the other market options.

docklite® LED

DLAW LED docklite® Wet Location LED Task Light

The DLAW Series is a 16W wet location LED task light that is ideal for outdoor use or in wet indoor environments. It is virtually maintenance free and is 89% more energy efficient than a standard incandescent head using a 150W lamp.

Flex LED docklite® Flexible Arm LED Dock Light

The FLEX LED docklite® provides light comparable to an incandescent dock light with a 150W PAR38 lamp. The fixture offers a sleek design as well as a flexible arm and hinged bracket, allowing it to swing easily out of the way.

DLA LED docklite® 16W Modular LED Loading Dock Light Head

The DLA 16W LED docklite® head delivers an instant-on, bright, uniform light. Powered by 16W, it offers an 89% energy savings over an incandescent head using a 150W lamp.

Wattage	16W	10W	16W

Modular docklite® Incandescent Light Head

The Modular docklite® is made of interchangeable components to maximize flexibility and cost effectiveness. These fixtures are designed to illuminate truck, trailer and railcar environments.

Wire Lamp Guard

The wire lamp guard is recommended for areas where lamp theft is a problem. It is used as an optional replacement for the standard guard shipped with the unit.

- Theft and lamp damage protection
- Easily installed
- Hinged for relamping
- 7.50 inch (191 mm) diameter
- For use with standard incandescent modular light head

Polycarbonate Guard

The polycarbonate guard protects against lamp damage and is ideal for food processing applications.

- Lamp damage protection
- Helps contain broken lamp glass
- For use with standard incandescent modular light head with a maximum of 70W

Fan

This quiet, 18 inch diameter fan operates at three speeds providing up to 8250 CFM circulation.

- 18.00 inch (457 mm) diameter
- Use with Double Strut arm only
- Rotates vertically and horizontally
- Draws 2.6 amps on high

24 inch Single Strut Arm

42 inch Single Strut Arm

60 inch Single Strut Arm

42 inch Double Strut Arm

60 inch Double Strut Arm

Single Strut Arm Modular Dock Light Arm

The Single Strut arm is made from 1½ inch square steel tubes with a ⅜ inch thick 3 inch by 5 inch steel mounting bracket. A wrist-action joint (except on the 24 inch arm) permits multi-directional movement. An on/off rocker switch controls power to the head.

Double Strut Arm Modular Dock Light Arm

The Double Strut arm operates a light head and fan combination. An on/off rocker switch controls power to one of the two receptacles. A ⅜ inch steel bracket with a 5 inch by 17 inch footprint and three steel braces easily support the extra weight.
