

! CAUTION

- All wiring should be done by a licensed electrician in accordance with state codes, local codes, and National Electric Code (NEC) or International Electrotechnical Commission (IEC) standards.
- Improper installation may result in serious injury and void warranty.
- Risk of electric shock. Do not use with extension cord near water or where water may accumulate. Keep lamp at least 16 feet from pools and spas.
- Contains parts and assemblies susceptible to damage by electrostatic discharge (ESD).
- When using luminaires, basic safety precautions should always be followed to reduce the risk of fire, electric shock and personal injury. Keep plugs and receptacles dry. When used in wet locations, Ground Fault Circuit Interrupter (GFCI) protection is to be provided on the circuit(s) or outlets(s) to be used for the luminaire. Receptacles are available having built-in GFCI protection and are able to be used for this measure of safety.
- Surge protective devices should be utilized for fixtures installed in environments subject to power surges outside the specified operating parameters.

Installation

1. Identify the desired mounting location for the fixture, keeping in mind that the ARIES can be mounted in any orientation.
2. Mount the fixture using the 0.50 inch (12.7 mm) clearance hole and customer provided hardware.

Wiring

ETL Certified	CE Certified
black : line	brown : line
white : neutral	blue : neutral
green : ground (PE)	green with yellow stripe : ground (PE)
