

! CAUTION

- All wiring should be done by a licensed electrician in accordance with state codes, local codes, National Electric Code (NEC) standards and International Electrotechnical Commission (IEC) standards.
- Improper installation may result in serious injury and void warranty.
- Keep plugs and receptacles dry. This fixture should only be used on Ground Fault Circuit Interrupter (GFCI) protected circuits.
- Contains parts and assemblies susceptible to damage by electrostatic discharge (ESD).
- When using luminaires, basic safety precautions should always be followed to reduce the risk of fire, electric shock and personal injury.
- Maximum distance to the receptacle is determined by the length of the cord provided.

Included in the SturdiLED[®] Lens Kit: eight (8) M4 socket head screws (Item 1), eight (8) o-rings (Item 2) and one (1) lens (Item 3).

Lens Installation

1. Disconnect power to fixture.
2. Loosen the eight (8) M4 socket head screws (Item 1) using a metric allen wrench (not included).
3. Remove the screws (Item 1), o-rings (Item 2) and lens (Item 3) from the fixture housing.
4. Insert new lens (Item 3). Ensure bosses on the lens align with pockets on the mating surface of the housing. **Note:** Orientation is critical.
5. Secure lens (Item 3) using eight (8) screws (Item 1) and eight (8) o-rings (Item 2). Torque screws to 12 inch pounds. **Note:** Refer to diagram below for order of installation of screws.

Note: Please follow all instructions. If lens is not aligned and sealed properly, the fixture may leak.
